

# Work-4-Water

## Curriculum Subcommittee

Collaborates and shares expertise in the design and development of the Work-4-Water course curriculum, to be approved by the Advisory Council by September 2023.

**WAI** WASTE WATER  
ALTERNATIVES &  
INNOVATIONS

## Meeting Frequency

Attend 1-hour monthly Zoom meetings from March-June for a total of four hours, with the potential for participating in individual consultations as needed.

## Benefits

- + **Recognition** of efforts at public outreach events and on WAI's website
- + **Opportunities** for networking, community involvement and professional development

### Guidance

- Revise learning goals, outcomes, lesson plans, evaluations, and supporting materials
- Provide input and feedback to finalize the curriculum

### Expertise

- Contribute personal insight, content knowledge, and resources, relating to the workforce needs of the wastewater industry in Hawai'i
- Recommend and support the coordinating of guest speakers and subject matter experts

### Collaboration

- Review prepared deliverables provided by WAI before meetings
- Discuss recommendations and amendments during meetings

Join us in addressing the critical need for wastewater professionals in Hawai'i. Be a part of the Work-4-Water program and help build a better future for our communities.

# Work-4-Water

## Recruitment Subcommittee

Provides guidance and recommendations on effectively recruiting individuals. Members will assist in the development of a comprehensive recruitment strategy to attract and retain diverse participants as well as enhance program visibility, appeal, and retention.

**WAI** WASTEWATER  
ALTERNATIVES &  
INNOVATIONS

## Meeting Frequency

Attend two 1 hour Zoom meetings for a total of two hours, with the potential for participating in individual consultations as needed.

## Benefits

- + **Recognition** of efforts at public outreach events and on WAI's website
- + **Opportunities** for networking, community involvement and professional development

### Outreach

- Recommend ways to increase awareness and interest among potential participants
- Identify key community members, events and organizations
- Enhance program visibility, assist in disseminating general Work-4-Water information

### Guidance

- Provide feedback to improve existing recruitment strategies and allocated budget use
- Address/advise on how to overcome challenges identified during the recruitment period
- Assist with reviewing metrics for measuring recruitment success

### Appraisal

- Track progress over time to ensure goals are met and the strategies are effective
- Work to identify and recommend strategies for retaining program participants
